J. HARVEST & FROST

C O R P O R A T E S H I R T M A K E R

J. HARVEST & FROST

Our mission is to bring passion and aesthetics to your workday. J. Harvest & Frost is built on the belief that aesthetics, quality design and precision craftsmanship play fundamental parts in our lives. In other words – we believe in order to thrive and find our passion while we work - we need to surround ourselves with things which inspire and encourage us.

WE ARE SHIRTMAKERS

We are a work shirt brand for men and women - and in order to succeed in our mission, and become “fuel for your passion”, we offer well-made, detailed and affordable work shirts of the highest quality. We aim to be that undefinable, yet powerful, intangible asset which aesthetics represents in your workday. J. Harvest & Frost was established in 2014 as a result of a collaboration between two brands – James Harvest Sportswear, rooted in U.S. college fashion with worldwide distribution and Frost, with its focus on tailored, well-cut garments in a small scale. Two excellent concepts brought together in one brand.

We started on a journey to develop our lines of high quality work shirts for men and women.

To be there with you – everyday - at the workshop, the office or at the pub – we set out to develop a collection of shirts which would meet the needs of those occasions. Quality, durability, and ruggedness became our lodestars.

We found inspiration in early 20th century fashion, as well as books, movies, brands and classic designers. We were determined to create something unique – but still at affordable prices. We wanted to make each garment something we would’ve loved to wear ourselves.

NEVER DONE

Still, people’s expectations and needs changes, so we realize, with delight, that our pursuit for that perfect work shirt will be never-ending and we’ll continue our journey and search for the best fit, materials, details, stitches and techniques.

Making these products demands a holistic view on design, and we recognize that aesthetics are more than visual beauty. We live by the rule that quality design is the sum of three inseparable variables; excellent craftsmanship, the best materials and integrity.

So, while we’re on our quest to give you that little bit of extra beauty in you workday – rest assured – we have got your back. Work hard – and put all your energy into your own dreams. We’ll make sure you’re always dressed for the occasion.

RESPONSIBILITY & SUSTAINABILITY

CLIMATE IMPACT AND EMISSIONS

Research shows that 80 % of the climate impact from Swedish clothing comes from the production phase*. By doubling the active lifespan of a garment, the climate impact can be almost halved. Thus, the most important thing we can do is to increase the longevity of the products. That is why classic design and quality products - a concept that will never be out-of fashion - is the very core of everything we do. In addition, work actively with our suppliers regarding energy efficiency, energy source and production techniques to further reduce our total impact.

A significant share of a garment's total environmental footprint is traceable to the choice of material. Therefore, we strive to use more preferred materials - such as recycled polyester and organic cotton - whenever possible. However, all materials have advantages and disadvantages from a sustainability perspective and priority is always quality and durability to enable a long lifecycle.

For transportation, that also significantly contributes to greenhouse gas emissions, we have to main strategies. Firstly, we constantly work with evaluating our processes to streamline our routines and plan our purchases well in advance. Within the New Wave Group, shipments of different sister companies are clubbed together as much as possible so that containers are always optimally filled during transport. We are also very careful which partners we choose to work with and only use well-known carriers we know are at the forefront from a sustainability perspective, both for sea freight and land transport. Secondly, we strive to influence the transportation companies that we are working with. New Wave Group is a member of "Clean Shipping Index", that aims to impact the shipping companies to use cleaner vessels by ranking the most high-performing ships.

PROGRESSIVE WORK WITH CHEMICALS

All suppliers must follow the requirements in our Restricted Substance List. The list has been designed in accordance with legislation such as REACH, but also taking industry recommendations and standards such as Oeko Tex into account. Through our parent company New Wave Group, we take part of the Swedish Chemicals Group organized by RISE to receive the most updated information on chemical legislation and developments. With this information we can actively work to reduce and replace chemicals in line with best available techniques.

IMPROVING WORKING CONDITIONS

We are aware of the great responsibility that comes with sourcing goods in countries which have not come as far as us when it comes to working conditions and environmental issues. We must ensure that the business operations of our suppliers respect national requirements as well as international conventions on human rights. Successful work requires devotion and patience. Many of the challenges we face are global problems like poverty and malfunctioning welfare systems. In this sense, social compliance does not offer a quick fix. We believe it is essential to be presented on-site. For this reason, we have local offices in Asia taking care of the everyday work with supplier auditing, monitoring and dialogue. Our full-time CSR staff are educated and well-experienced on labor conditions and environmental aspects of the production sites. Their work is leading the development.

CODE OF CONDUCT – AMFORI BSCI

Our Code of Conduct summarizes what we expect from all our suppliers when it comes to social and environmental responsibility. It contains requirements such as minimum wage, working hours, prohibition of child labor and several other requirements from global frameworks such as the ILO Conventions and the UN Declaration of Human Rights. Through New Wave Group we are a member of amfori BSCI (Business Social Compliance Initiative) and have adopted the amfori BSCI Code of Conduct. Today, more than 2000 companies all over the world have joined amfori BSCI and have adopted the code. Together we reach out to approximately 30 000 unique suppliers worldwide, which empowers our voice and influence in social dialogue. In addition to internal audits and supplier visits, we are obliged to implement and follow up the Code of Conduct through third-party audits.

Amfori BSCI is a commitment, and the most important work begins when the inspection is completed, and the findings are to be remedied. Therefore, it is not permitted to use amfori BSCI as a label or a guarantee for individual products. The amfori BSCI logo may only be used to prove membership so that the customer can feel confident that we take long-term responsibility - even for suppliers who need to improve.

INTERNATIONAL ACCORD

New Wave Group has signed the International Accord for Health and Safety in the Textile and Garment Industry. The original Accord - or the Accord on Fire and Building Safety in Bangladesh - came into force in 2013, only weeks after the Rana Plaza disaster where a factory building collapsed. New Wave Group signed the agreement, which was a legally binding agreement for improved safety in the textile industry in Bangladesh with focus on structural, electrical and fire safety. The agreement meant, among other things, that factories undergo electrical and building inspections as well as training and education in fire safety.

Now the original Accord has developed into the International Accord, which New Wave Group has also signed. In addition to fire and building safety, the International Accord also covers general work environment, and the ambition is to expand the program to other production countries, hence the name change. The Accord is a unique initiative that has a significant impact on the daily life of millions of textile workers. We are proud to be a part of this initiative.

RECYCLING FOR A SUSTAINABLE SOCIETY

To collect and recycle waste packages is a wonderful way to reduce environmental impact and create cradle-to-cradle circulation. We embrace the national collecting system where we operate. In Sweden, we are affiliated with FTI (Förpackningsinsamlingen) and comply with Producer Responsibility obligations.

PREPARING FOR UPCOMING LEGISLATIONS

Driven by the European Green Deal, we are facing many new laws and regulations related to sustainability the coming years. For example, the Corporate Sustainability Reporting Directive (CSRD), and the Ecodesign for Sustainable Products Regulation (ESPR). All place higher demands on traceability and transparency and will have a great impact on our operations in the future. Therefore, we put a lot of focus on working our processes and introducing support systems to be able to manage increased demands on information and transparency.

BOW 50

EASY CARE

BLACK BOW

THE ULTIMATE IRON FREE SHIRT WITH REVOLUTIONARY SPILL PROTECTION, AND PROBABLY THE LAST GREAT SHIRT YOU'LL EVER NEED. SAY GOODBYE TO IRONING, UNTIMELY COFFEE SPILLS AND BUSINESS LUNCH STAINS. THANKS TO ADVANCED NANOTEX TECHNOLOGY, THE BLACK BOW HAS YOUR BACK. BLACK BOW IS SET OUT TO BE THE WORLD'S BEST WORKING SHIRT. YOU'RE NOW ABLE TO TEST IT IN ITS NATURAL ENVIRONMENT - YOUR LIFE.

SPLIT YOKE

The construction of the yoke involves splitting the yoke, rotating the parts in the correct angle and sewing them back together. This allows the fabric a bit more stretch which gives you improved freedom of movement and a better fit. We also added mechanical stretch in the material to make it comfortable to look this sharp.

SOFT MODERN CUT AWAY COLLAR WITH HIDDEN BUTTON DOWN

No more of anti-gravity collar. These collartips stays put with the Hidden Button Down feature.

ELASTIC COLLAR BUTTON

In the strive to make the worlds best working shirt, we made a pledge to ourselves. Before retiring we would make a patented solution to the problem many (including ourselves) have. Closing the top button in the collar, is for some very uncomfortable or even impossible. This should be possible to amend.

We have taken the first step in that direction. The top collar button is fastened with elastic tread instead of the traditional one. This makes room for extra movement and is more comfortable to wear. A small, but important, step towards our big aim at making the finer wear work.

NEVER IRON

Everybody knows about Non Iron. Sometimes it's true and sometimes, not so much. We already have Non-Iron on most of our shirts, and we are confident that you have tried it and found it to be one of the ones that works. We were not content. There is still some room for improvement, we said... Which of course there was. Enter; Never Iron. Life is bigger than creases.

A Never Iron shirt stays crisp through out the day, due to the taped seams and the wrinkle resist treatment. The activator for the Never Iron function is however moisture. So it needs to get damp or wet to straiten out the small amount of creases accumulated during the use of the shirt.

NANO TECHNOLOGY

Beside our regular acclaimed style and finish, we went further into the construction of the fabric. We went far into the fabric. We enhanced the fibres on a molecular level, maintaining the feel and look of the cotton, but made it more resistant towards liquids and oils. Both from the outside and the inside. So if you spill, or get a nervous sweat attack, minutes before your big meeting, you still look like a million bucks. Brush it of and nail that presentation.

Nothing beats the clean look of a solid dress shirt.

But even at a solid color there are still some features that make our shirt stand out from the crowd. The shirt is crafted in our favorite high performance twill texture. This gives the perfect sheen to it, results in a substantial good hand feeling and makes it less transparent than similar white dress shirts.

A split yoke in back, medium cut-away collar and a 35 mm. raised placket set the edge for this sharp, but classic shirt.

SOLID COLORS. 100% LONG STAPLE 2-PLY COMPACT COTTON, 124 G/M², NON-IRON PATENTED ENVIRONMENTAL TREATMENT. TAPED MAIN-SEAMS. 4 MM-THICK BUTTONS. LONG SLEEVE. SINGLE ANGLE CUFF, WITH EXTRA BUTTONHOLE FOR CUFFLINKS.

We might be one of very few brands that, at the present, can handle the combination NON IRON & STRETCH. It's a tricky combination, you see, which requires quite a lot of thinking, testing and developing to get all this performance into one single shirt. Luckily, we do enjoy the hard-work & developing.

RB121 comes with stylish details, such as a passepoiled chest pocket and matching contrast colors at the right spots.

OXFORD WEAVE. 95% LONG STAPLE 2-PLY COMPACT COTTON, 5% ELESTANE, 145 G/M². NON-IRON PATENTED ENVIRONMENTAL TREATMENT. TAPED MAIN-SEAMS. BUTTON DOWN COLLAR. LONG SLEEVE. ROUND EDGE-CUFF, WITH EXTRA BUTTONHOLE FOR CUFFLINKS. 4 MM-THICK BUTTONS.

This is an edgy shirt with extreme cut-away collar. The microcord structure in the fabric that makes it stand out compared to our classic twill. The fabric in combination with extreme cut-away collar and a new kick-ass paisley contrast, makes a bold statement. The contrast is obvious on the white, and more discrete on the luxurious navy fabric. Wear it with jeans and a blazer or with a suit and sneakers and you will look impeccable, from the office to the dinner party.

100 % LONG STAPLE COTTON, 130 G/M². MICROCORD BEDFORD STRUCTURE. NON-IRON. TAPED MAIN-SEAMS. SINGLE ANGLE CUFF, WITH CUFFLINK HOLE. LUXORIOUS, 4 MM THICK NAVY BUTTONS.

A micro-patterned shirt in a jacquard-weave made in a mix of organic cotton and recycled polyester. It has our popular hidden button down collar and discrete details such as contrast placket line and contrast button thread.

A solid colored shirt with a subtle dobby structure combined with a soft collar and cuffs gives the shirt a smart & modern look. When you get the shirt in hand you will immediately recognize its more to it than catches the eye. The feather-light weight at first, silky soft hand-touch from lyocell as well, and the incredible stretch effect for your comfort, makes this shirt a master of performance. The shirt is also easy-care treated, so you can simply wash & wear it if you like.

JACQUARD-WEAVE, MICRO-PATTERNED, 60 % ORGANIC COTTON / 40% RECYCLED POLYESTER, 120 G/M². EASY CARE TREATMENT. SOFT ROUND EDGE CUFF, WITH CUFFLINK HOLE. 4 MM-THICK BUTTONS.

This leisure Oxford shirt captures the timeless preppy aesthetic with features like a box pleat at the back and a soft button-down collar, but it ushers in a new era in fabric technology. Created from a blend of long-staple cotton, Tencel (lyocell), and Elastane, this shirt delivers exceptional performance. The luxurious handfeel and appearance from the lyocell, combined with extreme stretch comfort from elastane, redefine leisurewear. Enjoy the added convenience of Easy Care – simply wash, grab, and go. Note that our Leisure models are 3cm shorter than our business models.

We mixed extra-fine Wool/ Cotton yarn to get an all-season garment and benefits from 2 natural fibers. To keep up our responsible work as a brand, we use certified wool and carefully selected long staple U.S. Pima cotton. You can wash it in a washing machine, but keep in mind, this is a Merino garment, and have benefits of not needing to be washed so often, simply air it out when needed.

The yarn is a compact yarn with extra high twist. We added "super wash"-treatment for less pilling. In addition we made it with long staple U.S. Pima Cotton. This way we can make sure of high quality, soft touch and high performance. We aim for the best only. High quality & high performance.

This is a classic, light padded $\frac{3}{4}$ coat that goes together with literally anything. Wear it over a college sweater or a suit. Either way, you will look sharp. The fabrics breathes well and is water repellent. The coat has two front pockets with button closing and one inside pocket. It's in regular fit, perfect as an outer layer; wear over a shirt, sweater and blazer.

SHELL FABRIC: 100% RECYCLED POLYESTER. PADDING: 100% RECYCLED POLYESTER
